

ZODIAC “ZODIAC” TRI-XO SERIES SALT CHLORINATORS

Zodiac Tri-XO CrossOver sets a new level of flexibility and control for the pool owner. Tri-XO software has been designed to configure to either using traditional salt based chlorination or CrossOver to the ever growing popular method of using mineral salts. The great thing is that you can CrossOver at anytime, so even if you begin using salt you can reset the software to configure it to use minerals.

Description	TRI-XO Compact	TRI-XO Mid	TRI-XO Large
Maximum* average pool size (litres)	40,000	70,000	100,000
Salt or mineral salts	Capable of both types		
Upgrades available	pH reduction (sensor control)		
Plumbing	40mm or 50mm (reducers provided)		
Operating salinity level	3,500ppm - Seawater		
Power Pack dimensions (HWD)	330mm x 310mm x 110mm		
Cell dimensions (LHW)	320mm x 155mm x 110mm		

Start up salt quantity is 5 kgs per 1 m³ volume of water

Code	Series	Model	Water Capacity (m ³)	Gram/Hour		
20902610005	TRI	TRI-COMPACT	40	20		
20902610015		TRI-MEDIUM	70	24		
20902610025		TRI-LARGE	100	40		
20902610010	TRI - pH	TRI pH-COMPACT	40	20		
20902610020		TRI pH-MEDIUM	70	24		
20902610030		TRI pH-LARGE	100	40		

HAYWARD “HAYWARD” AQUA RITE SERIES SALT CHLORINATORS

Start up salt quantity is 3.5 kgs per 1 m³ volume of water

Code	Model	Gram/Hour		
20900800005	AQR + T-CELL-3	13		
20900800010	AQR + T-CELL-9	18		
20900800015	AQR + T-CELL-15	27		

Code	Model	Water Capacity (m ³)	Gram/Hour		
24003000015	Salt	ใช้กับสระน้ำระบบเกลือ For Salt Water Pool	25 kgs/bag
